

NEXORA GROUP QA REPORT

Status: PASS

Summary

Files validated: 297

SVG 82 PDF 50 EPS 25 PNG 99

Max raster: 16000px

Errors: 0 Notes: 3

Findings

No blocking QA errors detected.

Documented limitations

Native Adobe Illustrator .AI not supplied; environment has no Adobe Illustrator. SVG/PDF/EPS masters are genuine vector and Illustrator-compatible.

Raster ceiling is 16,000 px rather than 32K/48K; vector masters are scale-independent and are the correct source for larger output.

Pantone not physically certified; physical swatch approval is required before industrial production.
